ABOUT US

Greo is an independent knowledge translation and exchange organisation with two decades of international experience in generating, synthesising, and mobilising research into action, across the health and wellbeing sectors. Greo helps organisations improve their strategies, policies, and practices, by harnessing the power of evidence and stakeholder insight.

Our services include sourcing and synthesising evidence, creating knowledge and education products, facilitation and stakeholder engagement, data and knowledge management support, evaluation, and applied research.

Greo serves as an independent platform that provides financial, governance, and intellectual property oversight for organisations seeking to fund research investigating the impacts of their programmes, policies, and practices or how to improve them. Greo does this by helping organisations to conceptualise their research needs and managing the end-to-end engagement—from solicitation to the review and awarding of funds to project oversight. This results in a rigorous and transparent process that minimises bias, manages confidentiality, strengthens the integrity of the findings, and respects the intellectual freedom of researchers.
