

MAKING CONNECTIONS

Linking Problem Gambling Evidence with Ontario Wellness Initiatives

PREVALENCE BY COMORBIDITY TYPE

PG & COMORBIDITY BREAKDOWN

Kessler, R.C., Hwang, I., LaBrie, R., Petukhova, M., Sampson, N.A., Winters, K. C., & Shaffer, H. J. (2008). The prevalence and correlates of DSM-IV Pathological Gambling in the National Comorbidity Survey Replication. *Psychological Medicine*, 38(9), 1351-1360 <http://doi.org/10.1017/S0033291708002900>

POTENTIAL POLICY COLLABORATIONS

LINKING PROBLEM GAMBLING WITH ONTARIO WELLNESS INITIATIVES

The high rate of comorbidity of problem gambling with other mental health disorders means problem gambling education, prevention, screening, treatment, research, and knowledge exchange can all benefit from smart collaboration with stakeholders in related health systems.
